Register Here:

Space limited to 8 students

Reiki Level 2 Heiki: HAY-y KEE

Heiki:

Symbol 2 is employed in the treating of mental/emotional issues, including anxiety, stress, nervousness, fear, depression, etc; and in the treating of addictions.

It can also be used to help with the release of 'wound memories'

[or 'emotional body armour']

Some practitioners use the symbol to help improve memory-recall; and it can be employed as a tool for de-programming inappropriate responses to given events / situations, etc, as well as in the programming of positive habits and responses.
